**COVID-19 (CORONA VIRUS) – AN UPDATE
FOR ALL OF OUR CUSTOMERS**

Dear Customer's

As you may be aware the second phase of the lockdown procedure is nearly upon us. As of the 4th of July businesses in the hospitality trade are being allowed to open with adherence to strict regulations. We are currently working towards adapting our business to offer the highest level of safety to our customers and staff. With this in mind, we are aiming to re-open as soon as we are sure that every precaution has been taken.

We are currently considering and planning the use of new PPE equipment in the restaurant and are having to completely rethink the way we have to work. We will be documenting and promoting the newly implemented safety features and procedures that will be announced over the coming months.

We are also currently working on a new and exciting seasonal Small Tapas Menu as well as updating our Takeaway Menu to suit our customers who would still prefer to remain socially distant.

In the meantime we are still providing you with our takeaway and delivery service.

Keep watching our social media for new updates!

Thank You and stay safe,

From Felix, Heather, Simon, Yolanda and all the team.
